

# Andrew Partridge

**Working with Andrew has been quite inspiring. His passion for our work and how good design can improve the outcomes of the YMCA and the clients we work with has taken us far further than we could have hoped for**

Andy Redfearn, Director of Housing & Development,  
YMCA London South West

## Qualifications

BArch, Dipl. Arch, FRSA

## Education

**1987** RIBA Part III  
**1984 - 85** Dipl. Arch., National University Singapore  
**1980 - 85** BA Hons, Leicester Polytechnic

## Practice

**2011** Associate Partner, Rogers Stirk Harbour + Partners (RSHP)  
**2001 - 10** Associate, Rogers Stirk Harbour + Partners  
**1989 - 2007** Richard Rogers Partnership  
**1987 - 89** Michael Hopkins, London  
**1986 - 87** Avery Associates, London

## Summary of Experience

Andrew has worked for the practice for nearly 30 years and was made an Associate Partner in 2011. He has worked on many award-winning projects, including Lloyd's Register of Shipping, 88 Wood Street, the National Assembly for Wales, Heathrow Terminal 5, Las Arenas, and the Millennium Dome, where he was project architect for the central area.

Andrew was instrumental in setting up the project office in Barcelona and was based there for two years whilst he worked as project architect on the Hotel Hesperia and Conference Centre, and the Viladecans Business Park. Andrew also led the design team that delivered 8 Chifley, a sustainable office building in Sydney's commercial district.

Andrew is involved in much of RSHP's research and development and recently conceived of 'Skyfarm', a system of aquaponic and hydroponic farming designed as an alternative to typical land-intensive farming systems. He is also working on a portable health clinic for the charity, Doctors of the World.

Andrew's work investigating how modern methods of manufacture can be used in housing and school design, was demonstrated in the Design for Manufacture competition. This system of volumetric, off-site manufacture has since been deployed at Y:Cube in Mitcham London, providing one bed studios for young people unable to afford private rent; and most recently at PLACE/Ladywell Lewisham, where urban brownfield land is being utilized to provide 24 homes for local families in housing need.

Currently, Andrew is working on the development of similar modular housing schemes in Lewisham and the UK.

## Key Projects

<b>2017 -</b>	LivShare - Manufactured Housing, Residential, UK Town Hall - Hammersmith, Mixed Use, London, UK	<b>2001</b>	Viladecans Business Park, Office, Barcelona, Spain
