Summary of Experience

Ivan is an architect and senior director at RSHP. He began his career on Lloyd's of London and subsequently led the design of the European Court of Human Rights and Bordeaux Law Courts. He was a director in the practice from 1993, and a founding partner of Rogers Stirk Harbour + Partners, established in 2007. The practice became RSHP in 2022.

Two of Ivan's projects – Terminal 4 Barajas Airport Madrid (2006) and Maggie's West London (2009) – have won the Stirling Prize, the most prestigious architectural award in the UK. Ivan is deeply involved in design from city scale to the smallest detail and, together with Graham Stirk, promotes and develops the ethos and design quality for which the practice is renowned.

Ivan's work spans many building types, from airports to low cost housing, where the designs share a common belief that successful buildings pay the greatest respect to those that use them.

Projects designed and led by Ivan include: Metro Tunnel Project in Melbourne; Centre Building at the LSE in London; a new mixed-use piece of city in Monte Carlo; the International Spy Museum in Washington DC, USA; offices at Stratford, London for the Financial Conduct Authority, Transport for London, The British Council and Cancer Research UK; Barangaroo South masterplan and International Towers in Sydney, Australia; 300 New Jersey Avenue offices in Washington DC, USA; Senedd Cymru, Welsh Parliament in Cardiff, Wales; Law Courts in Antwerp; primary and secondary schools in Minami Yamashiro, Kyoto, Japan and Hackney London; a mixed-use town centre in Scandicci, Italy. Significantly, these projects have all been recognised by both national and international awards.

Ivan is currently leading the design on Casablanca Airport. Other live projects include Taoyuan T3 airport, Taiwan and the Hammersmith & Fulham Civic Campus in London. He also plays an instrumental role in developing modular housing pioneered at Crofts Street, Cardiff, Y:Cube, Mitcham and PLACE / Ladywell, Lewisham, London, UK.
