

Chien-Hui Li

Qualifications

BArch, MArch

Education

- 1996 - 98** MA Architecture Department, Tamkang University, Taiwan.
- 1992 - 96** BA Architecture and Urban Planning Department, Chung Hua University, Taiwan.

Practice

- 2021 -** Senior Associate, RSHP
- 2009 - 21** Gomore Building Envelope Technology Co. Ltd., Taiwan/Singapore/Beijing
- 2008 - 09** Space Seed Design Studio/ SHC Architects Taiwan
- 2000 - 07** Yo and Well Architects, Taiwan

Summary of Experience

Chien-Hui is a highly accomplished engineering and project management professional with extensive experience in large-scale infrastructure and architectural projects, specializing in building envelope systems, complex geometric façade design methodologies, and innovative construction techniques.

Playing a key role in the construction of Taoyuan International Airport Terminal 3, Chien-Hui integrates advanced engineering solutions with Taiwan's natural landscape to create a flexible, passenger-centric, and future-ready terminal. The project synthesizes best practices from major international airports, ensuring efficiency, seamless connectivity, and an enhanced traveller experience.

His expertise extends to performance testing, material research, and value engineering, as well as the detailed development of complex geometric façade construction methods, prefabrication techniques, and rationalized panel segmentation analysis to optimize structural integrity and installation efficiency.

Chien-Hui has a proven track record in budget control, subcontract negotiations, procurement strategies, and operational efficiencies. He is skilled in shop drawing management, regulatory compliance, and design coordination, ensuring the smooth execution of high-profile projects.

Additionally, he excels in leading multidisciplinary teams, conducting operational meetings, and implementing site-specific safety and quality plans to drive successful project completion.

Key Projects

2015 - Taoyuan Airport Terminal 3, Transport and Infrastructure, Taiwan

Teaching

2022 - 23 Guest Lecturer - Architecture and Urban Planning Department, Chung Hua University, Taiwan.

2019 - 22 Guest Tutor, Y5 Studio - Architecture Department of Tamkang University, Taiwan

2017 - 20 Guest critic and lecturer - Architecture Department of Tamkang University, Taiwan

2015 - 20 Guest critic and lecturer - Architecture Department of National Taiwan University of Science Technology
